Sherry Ragan

I was born in Memphis, Tennessee to Debbie and James Ragan. My father was in the Navy and as a result we lived in Hawaii, Florida, again in Memphis, California and Japan. I left Japan to attend BYU and graduated in Elementary Education in 1975. I began teaching August of 1975 in Eureka, Utah and taught the fourth grade there for two years. I attended BYU again and took classes in Educational Psychology but did not pursue a degree in that. I went back to teaching in April of 1977 and continued teaching 2nd grade at Alpine Elementary School until the Fall of 1980 when I entered law school at the J.Reuben Clark Law school, BYU. I graduated from law school in April of 1983 and began a short stint in private practice, representing people in various matters including divorce, and probate matters. I took a job with the Utah County Attorney's Office in 1986 and have continued to work for the county attorney's office as a prosecutor since that time. I plan to retire from the office sometime in the next few years. I have prosecuted a number of cases ranging from minor speeding tickets to homicide. I served as the criminal division chief for several years under Kay Bryson and I am not the team leader of the special victims unit. Many years ago I took the master gardener class, although I could use an update. My parents served on the beautification committee for American Fork City for many years. My mother has extensive training in flower arranging and has judged numerous flower shows. I have done a limited amount of flower arranging. I was able to attend this year's Arbor Day event and spent a couple of hours in the rain helping to plant trees at Discovery Park. I now have a deep appreciation for backhoes and for the young men and city employees who made the event a success. I am interested in serving on the beautification committee and hope you will allow me this privilege. I have an interest in drought resistant landscapes and in gardening and landscaping in general.

Taylor Henderson

Having been born in sunny St. George, I was never entitled to days in the pool or on the golf course. My father made sure that my 5 siblings and I learned how to work. While my friends went to Mexico and Disneyland for Spring Break, we planted trees, laid sod, installed sprinkling systems and even dug a hole for our trampoline. Although my friends had extravagant adventures with Mickey and Minnie Mouse, I was taught how to take pride in the beauty around me and how to make things beautiful.

Beginning at the age of 13 until I moved away for college, I spent my summers working on a landscaping crew. Our group of 6 was responsible for more than 50 acres and managed all the plants, sprinkling systems, water fountains, facilities and the overall ambience. I loved trimming back plants, fixing sprinklers and learning how rewarding it felt to improve the overall beauty of the community.

After marrying my wife, Sarah, and getting a job with Nu Skin Enterprises, my wife and I found ourselves in a beautiful home built in the 1940's. The home has had only two owners, both of which decided lathe and plaster, knob and tube electrical, archaic carpet and gold speckled wallpaper needed to stay in the home. We have enjoyed the many projects the home has offered, but none more than ripping out 11 prolific yellow holly bushes. It seemed the plants were working harder than we were to stay rooted in the ground! After two weeks of pulling and digging, we were victorious and have continued cultivating our yard.

Although I have never served on any civil commissions, I find myself entertaining the thought of how I can give back to the community. I feel Pleasant Grove has so much potential to be a beautiful and attractive city. As the city of trees, there is so much potential to capture in the beauty of old trees, historic homes and young and growing neighborhoods. I am anxious to contribute my skills in any way to the betterment of Pleasant Grove.

### City Code Text Amendments to Chapter 10-19-7, Adding section N – Seasonal Business Temporary Signs and Banners

### Public Hearing

#### APPLICANT:

Doug Gordon

#### ATTACHMENTS:

- Proposed ordinance amendments to Section 10-19-7-N

#### REPORT BY:

Ken Young, Community  
Development Director

Marcus Wager, Planning  
Intern

#### BACKGROUND

The applicant has requested that the City Code be amended to permit temporary signs for seasonal businesses, with an approved sign permit.

#### ANALYSIS

Following direction from the City Council for the applicant to meet with staff, section 10-19-7 N was created which states:

Seasonal Business Temporary Signs and Banners: Signs or banners directing persons to seasonal businesses. Each seasonal business shall be limited to five (5) advertising/directional signs or banners. The sign or banner may not exceed twelve (12) square feet in area and may be placed in commercial zones only. Applicants must submit an application for a temporary sign permit and written consent from the property owners where the signs or banners are proposed to be located. Signs or banners are allowed for a period not exceeding fourteen (14) consecutive days or a total of sixty (60) days per year. Signs or banners are to be removed three (3) days after the end of the event. A temporary sign permit is required for each separate time period used. Refer to section 10-19-7-M4 for design and construction requirements.

Staff feels that by approving this, it will give greater flexibility to seasonal business owners with regards to signage.

### Myler Plat A Final Plat

#### Public Hearing

**APPLICANT:**

Isis Group

**ADDRESS:**

810 West 700 South

**ZONE:**

Business Manufacturing  
Park

**GENERAL PLAN:**

Industrial

**ATTACHMENTS:**

- Zoning Map
- Aerial Map
- Final Plat

**REPORT BY:**

Ken Young, Community  
Development Director

Marcus Wager, Planning  
Intern

**BACKGROUND**

The applicant is requesting approval of a 2-lot final plat called Myler Plat A located at approximately 810 West 700 South in the Business Manufacturing Park Zone, with a General Plan designation of Industrial.

**ANALYSIS**

The Spectrum Academy charter school has purchased property for their new location on 700 South. In order to meet the zoning they have a 100 foot wide "strip" that extends from the main body of the property up to the required frontage on a public street at 700 South. The State Fire Marshal has required them to have a 40 foot wide paved driveway access. The remaining width of the strip is not effectively used by the school. Additionally, the owner of the adjacent property, Brad Myler, who sold the property used by the school would like to add the unused area to his remaining land and increase the acreage available for sale. Since a standard street has 40 feet of pavement, it makes more sense to plat the "strip" as a street allowing the property to be more effectively although there is additional cost with the cul-de-sac construction.

For this reason the proposed 2 lot plat was prepared. This allows the strip to be turned into a 50 foot wide street right-of-way dedicated to the City with the remaining 50 foot attached to the Myler parcel. The school meets all of the requirements of the zone with the proposed street.

**RECOMMENDATION**

The Planning Commission reviewed and approved the preliminary plat on May 8, 2014. Staff recommends that the City Council **approve** the final plat, known as Myler Plat A with the following conditions.

1. All Final Planning, Engineering, and Fire Department requirements are met.
